

IBH TOKEN

Real World Asset Tokenization Whitepaper

1. Declaration

This document certifies that the digital asset known as IBH Token, issued under the authority of Eruption, represents a tokenized structure designed to connect blockchain technology with real-world assets.

2. Token Information

Company: Eruption

Network: Binance Smart Chain (BSC)

Standard: BEP-20

Token Symbol: IBH

Total Supply: 1,000,000 IBH

Liquidity: Locked

Ownership: Secure

Website: <https://www.eibh-coin.com>

X: <https://x.com/lbhcoin>

Telegram: https://t.me/eibh_coin

Contract Address:

0xfee1e3eb419bd56b04efbf14f809a3972660579b

3. Asset Backing

IBH Token is designed as a blockchain representation of authorized real-world asset rights. Information regarding underlying assets should be supported by the corresponding legal documentation maintained by the project.

4. Blockchain Verified Documents

Supporting documentation includes Exclusive Asset Utilization Authorization, Exclusive Project Finance Mandate, Apostille Documentation, Non-Circumvention Confidentiality Agreement and Strategic Joint Venture Cooperation Agreement.

5. Purpose

The objective of IBH Token is to bridge traditional asset ownership with blockchain technology through secure, transparent and borderless digital asset tokenization.

6. Verification
